3D PRODUCT DESIGN SERVICES AGREEMENT

This Agreement (the **"Agreement"**) is made as of [DATE] (the **"Effective Date"**) between:

Green Globe Impex Inc., an Arizona corporation with its principal office at **2390 E Camelback RD, Ste 130 phoenix, AZ 85016,** United States (**"Green Globe"**); and

[DESIGNER LEGAL NAME], a [company/LLP/proprietorship] organized under the laws of India, with its registered office at [ADDRESS], India, PAN [***], GSTIN [***] (the **"Designer"**).
Green Globe Impex Inc. and the Designer are each a **"Party"** and together the **"Parties"**.

1. Purpose and Scope

The Client engages the Designer to conceptualize, develop, and deliver original, innovative, commercially viable designs suitable for manufacturing and 3D printing of products and sell worldwide.

The Designer shall provide design services in accordance with written specifications, product categories, delivery schedules, and commercial terms mutually agreed upon through individual work orders and full transfer of ownership & rights under laws applicable in USA.

1. Definitions

1.1 **"Acceptance Criteria"** means the criteria in Section 4, Exhibit B, and the applicable Work Order.

1.2 **"Background IP"** means intellectual property owned or licensed by the Designer before the Effective Date or developed independently of this Agreement and without use of Green Globe Confidential Information, and which the Designer identifies in a Work Order or in writing before use in any Deliverable.

1.3 **"Confidential Information"** has the meaning in Section 9.1.

1.4 **"Deliverables"** means everything the Designer creates or delivers under a Work Order, including: (a) the Native CAD Files; (b) the STL Files; (c) the Source Files; (d) drawings, renderings, dimensions, tolerances, print settings and documentation; and (e) all drafts, iterations and work-in-progress.

1.5 **"Design IP"** means all intellectual property rights in the Deliverables worldwide, including copyrights, design rights and registrations, patent rights and applications, trade secrets, database and moral rights (to the extent assignable or waivable), and all rights to register, renew and enforce any of them, but excluding Background IP.

1.6 **"Native CAD Files"** means the original, fully editable files in the native format of the CAD or modeling software used to create the design (for example .f3d, .sldprt/.sldasm, .3dm, .blend or .step/.stp as specified in the Work Order), including the complete feature history, parametric sketches, constraints, assemblies, named parameters, and any configuration or variant tables, and **not** flattened, imported-mesh-only, or locked or protected versions.

1.7 **"Source Files"** means all other files used to produce the Deliverables, including scripts, parametric generators, textures, reference geometry, slicer project files (e.g., .3mf) and print profiles.

1.8 **"STL Files"** means mesh files in STL (or equivalent 3MF/OBJ if agreed) exported from the Native CAD Files and ready to print.

1.9 **"Work Order"** means a written order substantially in the form of Exhibit A signed by both Parties.

2. Engagement and Work Orders

2.1 **Work Orders.** Each project will be described in a Work Order stating the scope, specifications, Deliverables, CAD software and version, schedule, fees and payment milestones, review period, and any special terms. A Work Order is governed by this Agreement. If the two conflict, this Agreement controls unless the Work Order expressly refers to the Section it overrides.

2.2 **No minimum commitment.** Green Globe is not obliged to issue any Work Order. The Designer is not obliged to accept one, but once signed it is binding.

2.3 **Standard of work.** The Designer will perform with professional skill and care, using personnel with appropriate expertise, and will meet the schedule in each Work Order. The Designer will promptly tell Green Globe of anything likely to cause delay and propose mitigation measure with timelines.

2.4 **Green Globe direction.** Green Globe Impex Inc. may give reasonable direction on design intent, dimensions, aesthetics, materials and printing method. The Designer controls the manner and means of its work.

2.5 **Personnel and subcontractors.** The Designer will use only employees and third-party experts who have signed written agreements that (a) assign to the Designer, by present assignment, all rights in work they contribute, (b) waive or agree not to assert moral rights to the extent permitted, and (c) bind them to confidentiality terms at least as protective as Section 9. The Designer will not use any firm or person without Green Globe's prior written approval and remains responsible for every firm or person.

3. Design / Deliverables, Including Native CAD Files

3.1 **Complete delivery.** Each delivery must include the STL Files **and** the Native CAD Files and Source Files, in the formats and to the standards in Exhibit B and the Work Order. A delivery that omits or locks any of the Native CAD Files is incomplete and does not start the review period or trigger any payment.

3.2 **Delivery method.** The Designer will deliver through the secure repository or transfer method Green Globe designates, with a checksum manifest, and will keep delivery logs.

3.3 **Native-file verification.** Green Globe may verify that the Native CAD Files open in the specified software, rebuild without errors, and can be edited by changing named parameters. Failure of this check is a failure of the Acceptance Criteria.

3.4 **Retention.** The Designer will keep a secure backup of the Deliverables until Green Globe confirms in writing that final acceptance and delivery are complete and will then comply with Section 9.6.

4. Acceptance

4.1 **Review period.** Green Globe will have [15] business days after receiving a complete delivery to review it (the **"Review Period"**).

4.2 **Criteria.** A Deliverable is accepted only if it: (a) conforms to the Work Order specifications and Exhibit B; (b) includes complete and verified Native CAD Files and Source Files; (c) produces STL Files that match the Native CAD Files; (d) passes a test print on the printer type and material in the Work Order, with fit, tolerances and structural performance within the stated limits; (e) is free of defects in geometry (including non-manifold edges, inverted normals, or self-intersections); (f) contains no third-party material, malware or hidden code beyond what Section 10 permits; and (g) complies with the warranties in Section 10.

4.3 **Rejection and cure.** If a Deliverable fails the Acceptance Criteria, Green Globe will send a written notice describing the failure. The Designer will correct and redeliver within [7] business days at no additional charge, and the Review Period restarts. After [two] failed redeliveries, Green Globe may, by notice, (a) accept the Deliverable as is at a fee reduction reasonably reflecting the shortfall, (b) require further cure, or (c) terminate the Work Order and receive a refund of fees paid for the rejected Deliverable, while keeping the license in Section 5.2 for evaluation purposes only.

4.4 **Acceptance.** Acceptance occurs when Green Globe confirms in writing. If Green Globe does not respond within the Review Period, the Designer may send a reminder notice, and if Green Globe still does not respond within [10] business days after the reminder, the Deliverable is deemed accepted. Acceptance does not waive any warranty or indemnity.

5. Ownership and Assignment of Intellectual Property and Design Rights

5.1 **Ownership.** As between the Parties, and subject to Section 5.2, the Designer owns the Design IP and design rights until the Assignment Date and Green Globe owns it from and after the Assignment Date.

5.2 **Interim licence.** From delivery until the Assignment Date, the Designer grants Green Globe an exclusive, worldwide, royalty-free, irrevocable (except for Green Globe's uncured payment default) licence to use, copy, modify, print and evaluate the Deliverables, and to prepare for production, testing and marketing, including quoting, tooling and sample runs. The Designer will not license, sell or otherwise exploit the Deliverables or any substantially similar design for anyone else.

5.3 **Assignment.** The Designer **hereby irrevocably and unconditionally assigns, transfers and conveys** to Green Globe, its successors and assigns, all right, title and interest in and to the Design IP and the Deliverables for that Work Order, **throughout the world, for the full term of protection and any renewals and extensions, in all languages, media, formats and technologies now known or later developed, with the right to exploit, modify, sublicense and further assign in whole or in part**. The Client shall have the unrestricted right to manufacture, 3D print, modify, reproduce, adapt, commercialize, market, distribute, license, sell and otherwise exploit products based on the accepted design in any country, without further royalties or approvals.

To the extent any right cannot lawfully be assigned, the Designer grants the Client an exclusive, perpetual, irrevocable, worldwide, transferable, sublicensable, royalty-free license to exercise that right to the maximum extent permitted by law.

5.4 **Originality & Non-Infringement.**

The Designer represents and warrants that each deliverable is original or properly licensed, that it has authority to transfer the contracted rights, and that the Client’s contemplated use will not knowingly infringe

third-party intellectual property rights. The Designer shall disclose in writing and obtain prior approval for any third-party or open-source components and their applicable restrictions.

5.5 **Work made for hire.** To the extent any Deliverable qualifies as a work made for hire under US copyright law, it is deemed such for Green Globe and, because the Parties recognize that not all contractor works qualify, the assignment in Section 5.3 applies in all cases.

5.6 **Moral rights.** To the fullest extent permitted by law (including Section 57 of the Indian Copyright Act, 1957), the Designer waives, and will procure that each author and contributor waives, all moral rights in the Deliverables, including rights of attribution and integrity, and will not assert them against Green Globe or its licensees, successors or customers. Where a waiver is not permitted, the Designer grants a perpetual, irrevocable consent to any use, modification or derivation by Green Globe.

5.7 **Reservation of ideas and tools.** The Designer retains its general skills, knowledge and generic tools, provided it does not use or disclose Confidential Information or reproduce the Deliverables or substantially similar expression, and nothing in this Section restricts the Designer from practising its profession for others.

5.8 **Trademarks and branding.** The Designer acquires no right in any Green Globe or third-party trademark, product name, or branding, and will not register any domain name, design or trademark relating to the Deliverables. The Designer will not display the Deliverables in a portfolio or publicity without Green Globe's prior written consent.

6. Fees and Payment

6.1 **Fees.** Fees, milestones, and expense rules are set out in each Work Order. No fee is payable except as stated in a signed Work Order.

6.2 **Conditions of payment.** Payment of any fee for a Deliverable is conditioned on (a) complete delivery under Section 3 including verified Native CAD Files, (b) acceptance under Section 4, and (c) receipt of a valid invoice and the tax documents in Section 8.

6.3 **Terms.** Unless the Work Order says otherwise, Green Globe will pay undisputed invoices within [30] days after receipt by wire transfer in US dollars to the Designer's account in India stated on the invoice. The Designer bears all bank charges levied by its own bank and the risk of currency fluctuations.

6.4 **Disputed amounts.** Green Globe may withhold amounts it disputes in good faith by notice describing the dispute and will pay the undisputed portion. Green Globe may set off amounts the Designer owes it against amounts due to the Designer.

6.5 **Remittance advice.** On request, Green Globe will provide a remittance advice with the details reasonably needed by the Designer's bank to document the foreign inward remittance.

7. Independent Entity

7.1 The Designer is an independent legal entity or individual. Nothing creates an employment, partnership, joint venture, agency or franchise relationship, and neither Party may bind the other.

7.2 The Designer is solely responsible for its personnel, including wages, benefits, social security and statutory contributions, insurance, and compliance with Indian labour and employment laws. The Designer's personnel are not Green Globe employees.

7.3 The Designer will perform the services outside the United States and will not create a fixed place of business, dependent agent, or other permanent establishment of the Designer in the United States, or of Green Globe in India, through its performance.

8. Taxes

8.1 **Designer responsible.** The Designer is solely responsible for all taxes, duties, levies and filings imposed on it or on its income in India or elsewhere, including income tax, advance tax and goods and services tax, and for registrations, invoicing and compliance. The Designer will state its PAN and GSTIN on each invoice.

8.2 **GST on export of services.** The Designer will determine and, where eligible, apply zero-rating for export of services (including any letter of undertaking or similar requirement). The fees are the entire amount payable. Green Globe will not pay or reimburse any Indian GST, interest or penalty, and if any is claimed from Green Globe, the Designer will indemnify Green Globe for it.

8.3 **US withholding and documentation.** Before the first payment, the Designer will give Green Globe a properly completed IRS Form W-8BEN-E (or W-8BEN for an individual) and any other documents reasonably requested. The Parties intend that the fees are payment for services performed outside the United States and for the sale of assigned intellectual property, and not a royalty for a licence. Green Globe may deduct and remit any withholding tax it is required by law to withhold, and amounts so withheld and paid to the proper authority are treated as paid to the Designer. Green Globe will give reasonable receipts for any withholding. Green Globe is not required to gross up any payment.

8.4 **Cooperation.** The Parties will cooperate in good faith to minimize lawful taxes, including treaty relief, to the extent available and properly documented, without altering the commercial deal. The Designer will bear the cost of any Indian tax advice it needs.

8.5 **Tax indemnity.** The Designer will indemnify Green Globe against any tax, interest, penalty, or cost assessed on Green Globe because of the Designer's failure to comply with this Section 8, other than taxes on Green Globe's own income.

9. Confidentiality

9.1 **Definition. "Confidential Information"** means all non-public information disclosed by or on behalf of Green Globe to the Designer, in any form, including product plans, designs, specifications, pricing, suppliers, customers, manufacturing methods, business strategies, unreleased products, the existence and terms of this Agreement, and all Deliverables (which are Green Globe's Confidential Information from creation, whether or not the Assignment Date has occurred). Information the Designer originates in its Background IP is not Green Globe Confidential Information unless it is embedded in a Deliverable.

9.2 **Obligations.** The Designer will: (a) use Confidential Information only to perform this Agreement; (b) not disclose it to anyone except personnel and approved experts who need to know it and are bound by written confidentiality duties no less protective than this Section; (c) protect it with at least the care it uses for its own most sensitive information and no less than reasonable care, including access controls, encryption in

transit and at rest, and no shared or personal accounts; (d) not copy it except as needed to perform; (e) not reverse engineer, decompile or derive designs from it; and (f) not upload Confidential Information or Deliverables to any public repository, model-sharing site, third-party generative AI or machine-learning tool, or any service that may retain or train on the content, without Green Globe's prior written consent.

9.3 **Return and destruction.** On Green Globe's request and on termination or expiry, the Designer will promptly deliver all Deliverables and Confidential Information (including all Native CAD Files and Source Files) and permanently delete all copies from its systems and backups (including those of its personnel and experts) and certify deletion in writing by an authorized officer. The Designer may keep only copies it is legally required to retain, subject to continuing confidentiality.

9.4 **Duration.** The obligations in this Section 9 continue for [five (5)] years after the end of the Agreement, and, for trade secrets and Deliverables, for as long as the information remains a trade secret or is not public.

9.5 **Injunctive relief.** The Designer acknowledges that a breach of this Section 9 or Section 5 would cause irreparable harm for which damages are inadequate, and that Green Globe may seek injunctive or other equitable relief without proving actual damages and without posting a bond to the extent permitted by law.

10. Warranties

10.1 The Designer represents and warrants, as of the Effective Date and on each delivery, that:

(a) The Deliverables are **original works** created by the Designer and its bound personnel and are not copied from or derived from any third-party design, model, product, or work, including any product of Sony Interactive Entertainment or any competitor's stands or accessories;

(b) The Deliverables **do not and will not infringe, misappropriate or violate** any patent, copyright, design right, trade secret, trademark, trade dress, moral right or other right of any third party, anywhere in the world;

(c) The Deliverables do not contain any third-party trademarks, logos, brand features or distinctive trade dress, and the Designer has not reproduced the protected design features of any console, accessory or other product beyond functional fit dimensions;

(d) No Deliverable includes content from model-sharing sites or marketplaces, open-source or Creative Commons assets, purchased or licensed model libraries, or output of a generative AI or automated design tool, unless disclosed in the Work Order and approved in writing by Green Globe, and then only if the license terms permit assignment and commercial use without attribution or share-alike obligations;

(e) The Designer will comply with all applicable laws, including those on export controls, sanctions, and anti-corruption (including the US Foreign Corrupt Practices Act and India's Prevention of Corruption Act), and will not offer or give anything of value to improperly influence any person; and

10.2 **Remedy.** If a Deliverable breaches a warranty, the Designer will at its cost promptly correct or replace it, and, if an infringement claim arises, will also, at Green Globe's option, procure the right for Green Globe to continue using it or redesign it so that it does not infringe and still meets the specifications. These remedies are in addition to indemnity and other rights.

10.3 **Disclaimer.** Except as stated in this Agreement, neither Party makes any other express or implied warranty.

11. Indemnification

11.1 The Designer shall defend, indemnify and hold harmless the Client and its officers, employees and customers from third-party claims, damages, reasonable legal fees and costs arising from the Designer's breach of its originality, ownership or non-infringement warranties, subject to prompt notice and reasonable cooperation in the defense..

12. Limitation of Liability

12.1 Except for the excluded matters in Section 12.3, neither Party is liable to the other for indirect, incidental, special, consequential, exemplary or punitive damages, or for lost profits or revenue, arising out of this Agreement.

12.2 Except for the excluded matters in Section 12.3, each Party's total liability under this Agreement will not exceed the greater of (a) [two (2)] times the fees paid and payable under the Work Order giving rise to the claim and (b) US$[AMOUNT].

12.3 **Exclusions.** Sections 12.1 and 12.2 do not apply to: (a) the Designer's indemnification obligations under Section 11.1; (b) breach of Section 5 or Section 9; (c) fraud, gross negligence or wilful misconduct; (d) the Designer's liability for taxes; or (e) Green Globe's obligation to pay fees properly due.

13. Insurance

The Designer will maintain throughout the term and for [two] years after, at its own cost, professional indemnity (errors and omissions) insurance, including coverage for intellectual property infringement where commercially available, of at least two times the fee's per claim, and will give Green Globe a certificate on request.

14. Term and Termination

14.1 **Term.** This Agreement starts on the Effective Date and continues for [One (1)] years, unless terminated earlier, and then renews for successive one-year terms unless either Party gives [60] days' notice of non-renewal. Work Orders in progress continue under this Agreement until completed or terminated.

14.2 **Convenience.** Green Globe may terminate this Agreement or any Work Order for convenience on [15] days' written notice. The Designer may terminate this Agreement (but not a Work Order in progress) for convenience on [30] days' written notice.

14.3 **Cause.** Either Party may terminate by written notice if the other materially breaches and does not cure within [15] days after notice (or immediately if the breach cannot be cured). Green Globe may terminate immediately by notice if the Designer breaches Section 5, 9 or 10, becomes insolvent, or is the subject of bankruptcy, liquidation or similar proceedings.

14.4 **Effect.** On termination: (a) the Designer will immediately deliver all completed and in-progress Deliverables, including all Native CAD Files and Source Files, in their current state; (b) Green Globe will pay fees for Deliverables accepted, and for work in progress reasonably performed to the termination date at

the pro rata milestone rate, except where termination is for the Designer's breach (in which case Green Globe pays only for Deliverables accepted); (c) Section 5.8 applies; and (d) Section 9.6 applies.

14.5 **Survival.** Sections 1, 3.4, 5, 6.4, 8, 9, 10, 11, 12, 13, 14.4, 14.5, 15, 16 and 17, and any right accrued before termination, survive.

15. Governing Law and Dispute Resolution

15.1 This Agreement shall be governed by the laws of the State of Arizona, United States, without regard to conflict-of-laws principles, together with applicable mandatory U.S. federal law. Subject to any enforceability requirements under applicable law, the Parties submit to the exclusive jurisdiction of state and federal courts located in Maricopa County, Arizona, for disputes arising out of this Agreement.

16. Arbitration

16.1 **Arbitration.** Subject to Section 15.4, any dispute arising out of or relating to this Agreement, including its formation, validity, breach or termination, will be finally resolved by binding arbitration administered by the International Centre for Dispute Resolution (ICDR) of the American Arbitration Association under its International Arbitration Rules in force on the Effective Date. The seat and venue of arbitration will be Phoenix, Maricopa County, Arizona. The tribunal will consist of one arbitrator (three if the amount in dispute exceeds US$[AMOUNT]) with experience in commercial and intellectual property matters. The language is English. The award is final and binding, may be entered and enforced in any court of competent jurisdiction (including in India under the New York Convention), and the Parties waive any right of appeal to the extent permitted. The arbitrator may award reasonable attorneys' fees and costs to the prevailing Party.

17. Notices

Notices must be in writing and delivered by hand, internationally recognized courier, or email with confirmation of transmission (with a copy by courier for any notice of breach, termination or claim), to the addresses below or as updated by notice. Notices are effective on receipt, or on the third business day after dispatch by courier if delivery is refused.

Green Globe: [Name, Address, Email]

Designer: [Name, Address, Email]

18. General

18.1 **Assignment.** The Designer may not assign, delegate or subcontract this Agreement or any Work Order without Green Globe's prior written consent, and any attempt is void. Green Globe may assign this Agreement to an affiliate or to a successor to the business or assets to which it relates, and may assign or license the Deliverables and Design IP freely.

18.2 **Entire agreement.** This Agreement, its Exhibits and each Work Order are the entire agreement on their subject and supersede all prior discussions and agreements, except that anything disclosed under any earlier non-disclosure agreement remains protected.

18.3 **Amendment and waiver.** Changes must be in writing and signed by both Parties. No waiver is effective unless in writing, and no failure or delay is a waiver.

18.4 **Severability.** If any provision is unenforceable, it will be limited to the minimum extent needed and the rest will continue. The Parties will replace it with an enforceable provision closest to their intent.

18.5 **Remedies.** Rights and remedies are cumulative.

18.6 **Force majeure.** Neither Party is liable for delay caused by events beyond its reasonable control, other than payment obligations and the Designer's obligations under Sections 5 and 9, but must notify the other promptly and use reasonable efforts to resume. Green Globe may terminate a Work Order if the delay exceeds [30] days.

18.7 **Counterparts and e-signature.** This Agreement may be signed in counterparts and by electronic signature, each of which is an original and all of which together are one agreement.

18.8 **Language.** This Agreement is in English. Any translation is for convenience only, and the English version prevails.

18.9 **Stamp duty and formalities.** The Designer will, at its own cost and within the time required by law, pay all stamp duty, registration fees, penalties and notarization or apostille costs required in India so that this Agreement, each assignment, and Exhibit C are valid and admissible in evidence in Indian courts and before Indian authorities, and will give Green Globe proof of payment. The Designer will, on request, sign and record any assignment with the relevant Indian authority.

18.10 **Interpretation.** Headings are for reference. "Including" means "including without limitation." The Agreement will not be construed against either Party as drafter.

Exhibit B – Deliverable and Native File Standards

1. **Native CAD Files.** Delivered in the native format and software version stated in the Work Order. Must contain the complete, unlocked, editable feature tree, sketches and constraints, named parameters and dimensions, assemblies with all component parts, and any configurations. No files may be password-protected, encrypted, flattened to a mesh or solid-only body, or reliant on external links, cloud-only references, or third-party plug-ins not identified in the Work Order. Referenced files must be packed with the project.
2. **Neutral format.** A STEP (AP203/AP214/AP242) export of the final model, in addition to the Native CAD Files.
3. **STL Files.** Exported from the final Native CAD Files; millimetre units; watertight and manifold; correct normals; no self-intersections or zero-thickness walls; oriented as recommended for printing; one file per printable part, named by product, part, revision and date.
4. **Source Files.** All scripts, parametric generators, textures, reference geometry and print profiles (.3mf), so a competent third party can reproduce and modify the design without the Designer.
5. **Documentation.** A README stating software and version, units, design intent, key parameters and how to change them, assembly and print instructions, recommended material and settings, and any known limitations. A manifest listing every file with a SHA-256 checksum.
6. **Version control.** Each delivery is clearly versioned. The last accepted version controls. Drafts are retained and delivered with the final.
7. **Verification test.** Green Globe will open the Native CAD Files in the stated software, rebuild with no errors, change at least one named parameter, regenerate, and confirm the STL Files are consistent with the model. Failure means the delivery is incomplete.
8. **Transfer.** Via the secure repository designated by Green Globe, with access restricted to authorized personnel.
